177	*Genre, a loose classification guideline, abbreviated as follows:				
178	<b>BOT: botanical, more technical with listings and descriptions of species and/or more technical/scientific information. These books often also</b>				
179	<b>have great cultural information as well.</b>				
180	GEN: a general book on orchids which may include such things as cultural information, photos, and background information.				
181	CULT: cultural information.				
182	BIO: biographical information, narrative stories incidental to orchids.				
183	REF: numerical listings, inventories, etc.				
184	ILLUS: primarily photos, drawings, etc, of flowers.				
185	Generic abbreviations with other classification listings identify books primarily concerned with specific genera/orchid families.
